MEDICINAL. A Chest that Came in the Mayflower

Is sure to attract the attention of every New England woman and with pride in her heart she marvels that it is so strong

and well preserved. This is due to the fact that it has received prompt attention when any signs of weakening were shown. So the woman of to-day may keep her strength and preserve her good looks if she gives immediate attention to the first symptoms of any womanly weakness. Dr. Pierce's Favorite Prescription promptly cures disease and restores strength to all women who are weakened by any womanly disease and are run down by maternal and household cares.

\$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.
Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. World's Dispensary Medical Association, Proprietors, Buffalo, N. Y.
Miss Stella Johnson, of 38 Brady St., Dayton, Ohio, writes: "I was troubled with severe pains every month when I wrote to you for advice. After following your directions, I am happy to say that after five years of untold suffering I have not had any pains since first using your 'Favorite Prescription.' I thank God and Dr. R. V. Pierce for the health I now enjoy. I shall urge other women who suffer as I did to use your medicine."
Take Dr. Pierce's Pleasant Pellets instead of any other laxative.

Japanese Scouts in Manchuria.

Notwithstanding denials of Japanese operations in Manchuria made by Major General Pflug to the Russian war office, advices from several points state that Japanese scouts are stealthily traversing sections of Manchuria, close to the Russian lines, and taking observations. The strategy and cunning of some of these Japanese scouts cause the Russians considerable anxiety. They are heard from where least expected, and vanish as mysteriously as they appear.

Advices from Seoul, Korea, delayed several days, state that the Japanese first army, consisting of 45,000 men, including the Imperial Guard and the Second and Twelfth Divisions, which had been concentrated at Anju, is moving on Wiju by three routes. It was the advance guard which repulsed 600 of the Russians and occupied Pingju (Chongju), 65 miles southeast of Wiju, March 28. Lieutenant Kato and four Japanese were killed on that occasion, and Captain Kurowaka and 11 men were wounded. The Russians had 10 men killed.

The horses, 5,200 to a division, were landed in bad condition. The necessity for leading each horse reduces the strength of the fighting force. Many of the soldiers are suffering from the effects of frozen feet.

The Japanese are fortifying Fusan, southern Korea, and Konje Island, off the southern coast, to defend Masampo.

The Russians overestimated the number of the Japanese force at Anju, and consequently retreated without making use of the natural advantages of the country to oppose the Japanese advance.

There are persistent rumors at Seoul of the landing of Japanese troops on the Liaoting peninsula and in the vicinity of Nuichwang.

Suicidal Mania.

An unusual number of suicides, at least half of them due to despondency because of inability to secure employment, were reported to the police of Greater New York yesterday. Three of the six victims chose carbolic acid as a means of ending their troubles, one chose death by shooting, another by hanging and the sixth accomplished his purpose by turning on the gas. The most youthful suicide was Eva Pocker, a 17-year-old Brooklyn school girl, who drank carbolic acid after reading a letter, and the oldest, Jacob Reihman, 65, of Manhattan, who had been ill with rheumatism. His body was found hanging in his lodgings yesterday. The body of another suicide, a woman, who had ended her life at least two weeks ago by inhaling chloroform, was found in a house on east Thirty-fifth street. A note found with the body said the woman was so deeply in debt that she saw no hope. The other suicides reported were James Kinney, fireman, who lost his work through drink; Samuel Levy, no work, carbolic acid; Egiato Bertone, stonecutter, shooting, no work; J. Bender, a crayon artist, gas.

Lying beside the grave of his wife, who died six weeks ago, and after witnessing the wedding of his daughter, Charles F. Steele, of Lancaster, Pa., sent a bullet into his brain yesterday that killed him instantly. He was suffering from intense melancholy over his wife's death and had made every preparation for suicide, writing his will and ordering his tombstone within the past week. The wedding Monday night of his eldest daughter, upon whom he looked as the mainstay of his family of eight children, it is supposed, aggravated his nervous condition. Steele left a pathetic note for his children, in which he said he died of a broken heart.

Rioting in Chicago.

Although it was announced Monday night that the strike at the American Can Company's plant in Chicago had been settled, the rioting around the place was fiercer yesterday than it has been at any time, and one man, John Nichols, lost his life by a bullet fired, it is said, from a train on which were a number of non-union men being taken back to the city after the conclusion of day's work. The fighting began early in the morning when 300 Greeks who have been employed during the strike, attempted to come to the factory. They were met at the gates by a large number of union pickets who attacked them with stones and clubs. A large detachment of the police had their hands full in protecting the Greeks when a shot fired from the crowd aroused the Greeks to fury. Those of the number who had entered the factory came pouring out armed with knives and revolvers and attempted to attack the union men and their sympathizers who were assaulting those Greeks who had not yet reached the gateway. The police, after a desperate struggle, managed to keep the two bodies of men apart, drove the Greeks into the factory, and dispersed the crowd on the outside. In this fight a number of men were battered up. At night when the 300 Greeks left the plant they were attacked by a mob fully 10,000 strong that pelted them with stones, sticks, and bottles. The police, however, escorted them to the train without anybody having been

seriously injured although quite a number of men on both sides were bruised. After the Greeks had reached their train it is said, somebody on the cars fired a shot, the bullet killing Nichols instantly.

Robbed the Grave.

A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c. guaranteed at E. S. Leadbeater & Sons' drug store.
